

## TCM Forklift Part

TCM Forklift Parts - In the global industry of material handling, forklifts play a major role for transporting industrial goods. Originally innovated as industrial vehicles during the 1930s in America, forklifts gained recognition after World War II during the 1940s. Becoming a reliable and efficient means to material handling solutions, the practicality and need of these machines spread worldwide.

First started as Toyo Carrier Manufacturing Company Limited, in 1949, the company was later renamed Toyo Umpanki Co. before becoming known as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's first lift truck. Over the years, TCM lift trucks have become a worldwide leader in forklift manufacturing and have built a solid reputation with the trade. TCM began constructing forklift manufacturing locations outside of Japan during the 1980s and is presently engaged in lift truck manufacturer at three foreign factories in the United States, Europe and China.

With more than fifty years of accumulated technology and expertise, TCM has been proudly manufacturing numerous models of industrial lift trucks, making their models recognizable all around the globe. With an energetic and strong employees, TCM has been able to constantly work towards becoming a future leading material handling business.
